

Collection: 9th International Conference: The Shadow Economy, Tax Behaviour and Insights from Big Data

The collection "The Shadow Economy, Tax Behaviour and Insights from Big Data" focusses on the following topics:

- shadow economy
- tax compliance
- taxpayer privacy
- psychological aspects of tax behaviour
- money laundering
- corruption
- formal and informal institutions
- trust in institutions

The collection explores and discusses recent research on the shadow economy, tax behaviour, and related fields. One focus area is the opportunities that the development of big data collection and AI-powered analytics creates for both academic understanding of tax evasion and related policymaking, but also the resulting challenges.

Authors of papers presented at 9th International Conference: "The Shadow Economy, Tax Behaviour and Insights from Big Data" held on 25-28 September 2025 at SGH Warsaw School of Economics are invited to submit original research articles. Papers should follow the

submission guidelines of the journal and be submitted electronically [here](#). There is no submission fee. Information for authors on the new submission system SNAPP can be found [here](#).

Submission open date: 1 October 2025 and submission deadline is 1 March 2026.

Submissions to this collection undergo the same peer reviewing process like regular submissions.
